Caught Napping.  
Uncle—Dear me, Carl, what a poor  
memory you have!

Nephew—A poor memory, you say?  
Why, I can repeat four pages of the  
names in the directory after reading  
them through only once!

Uncle—You bet you a hamper of cham-  
pagne that you can't do it.

The nephew sends for a directory, at-  
tentionally peruses four pages and shuts  
up the book.

Uncle—Well?  
Nephew—Muller, Muller, Muller, etc.,  
ad infinitum.

All the four pages of the directory be-  
ing taken up with this familiar patro-  
nymic, our student won his bet in fine  
style.—Seifenblasen.

Not an Unlucky Number.  
"Jason," said Mrs. Calliper to her hus-  
band as they sat at dinner, "do you  
think that 13 is an unlucky number?"

"No, Cynthia," said Colonel Calliper.  
"I can't say that I do, and I don't be-  
lieve that any of us would if the subject  
were presented to us in a proper light.

Now we fortunately are rich; we don't  
need money. But suppose we did, and  
that somebody should offer us \$18,000

Would we, would anybody, my dear, de-  
cline these thousands as unlucky because  
they numbered 13? No, Cynthia, no, we  
wouldn't—not to any large or appreci-  
able extent."—New York Sun.

For the Use of the Right Hand.  
The buttons on coats, etc., are placed on  
the right side and the shed of the hair in  
boys to the left evidently to suit manipu-  
lation by the right hand. The great  
philosopher Newton records that at  
first he confined his astronomical ob-  
servations to his right eye, but afterward  
he managed to train his left. But there  
are persons who could not do this, owing  
to the unequal strength of their eyes.—  
Chambers' Journal.

His Own Make.  
Travers—Look here, those shoes you  
made me crack.

Shoemaker—They always crack at the  
end of 80 days, sir, if the bill isn't paid.

## BREVITIES.

J. P. Foulkes of Essex spent yesterday in Reno.

N. H. A. Mason is back from a trip to Mason valley.

Garden tools and garden hose at Lange & Schmitt's.

All the people up north are coming to Reno for the Fourth.

The iron bridge will be covered with red, white and blue to-day.

Mr. and Mrs. J. W. Dorsey arrived from San Francisco yesterday.

The pavilion is being decorated for the grand ball on the Fourth.

Crookery and glassware at San Francisco prices at Lange & Schmitt's.

Hon. Theodore Winters was among the arrivals from the south last evening.

Berry & Novacovich will receive two carloads of vegetables to-day and tomorrow.

Herman Ash of the Poor Man's Clothing House is confined to his home by sickness.

Be sure and see that you get Ayer's Sarsaparilla and no other. That you may rely on.

Has anyone seen Geo. McLaughlin's white vest? He lost it yesterday morning at the fire.

Dr. W. D. Wagar was reported as being very low last evening, and the worst is feared in his case.

J. T. Banning notifies the owner of a stray filly to call at Steamboat springs and take the animal away.

District Attorney Culler departed for Carson yesterday on legal business, returning on the evening train.

Professor E. E. Whitely, principal of the Winnemucca public schools, is visiting his parents at their ranch east of town.

If you want a good fitting pair of boots or shoes—no sear work from strangers—go to H. F. Favola, who is reliable and no stranger.

"For pity's sake, George," said a distressed wife, "do get a bottle of Ayer's Cherry Pectoral for that cough and give us a rest." He did so.

Nearly all women have good hair, though many are gray and few are bald. Hall's Hair Renewer restores the natural color and thickens the growth of the hair.

Mrs. J. M. Gregory of San Francisco returned from a visit to her brother, Geo. D. Winters, at Smoke Creek, and left yesterday for her father's ranch in Washoe valley.

There will be several attractions at Loughton's Springs next Sunday. The band will discourse music and a prize will be given to the most graceful young lady rider.

Reno should be beautifully dressed in red, white and blue for the Fourth. The town is naturally beautiful, and should be made more so by artificial means for the celebration.

The appeal says the annual settlement shows \$9,500,000 in coin and bullion in the mint. Of this amount about a million and a half is uncollected. The accounts are all straight.

County Clerk Evans left yesterday to take a look at the White Horse mines. He has mining claims on what is supposed to be the Comstock belt between here and Wadsworth.

C. H. Stoddard is in from Steamboat springs which are now in a fine condition as they ever were. There is pressure enough from the steam generated in Nature's caldron to run an ordinary engine.

Mr. and Mrs. E. Crane leave to-day for San Francisco to remain a few months. Mr. Crane has been in poor health for some time, and he thinks a change of climate may be beneficial to him.

The name of the Spanish Infanta Eulalia is said to be pronounced A-o-l-a-l-e-a, with the sound of a as in father, i as e and the accent on the third syllable. The Chicagoans pronounce it "Yallally."

All work in the coinage department of the mint ceased Tuesday. Inspector Mogan highly complimented Coiner Colburn for the manner in which he had conducted his department and the splendid condition in which he leaves the machinery.—Tribune.

The clerks at John Sunderland's, as well as many others, have been greatly concerned over the welfare of the dog Handsome for the past few days. He had disappeared suddenly, and it was feared he had been stolen. However, he showed up yesterday in good form, having taken a trip over the N.-C.-O.

A sneak thief entered Dr. Mullen's sleeping apartments yesterday morning at the time of the fire, the door having been left unlocked, and stole a suit of clothes, including an overcoat. The doctor could forgive the theft of the clothes, but he cannot condone the offense of stealing an overcoat in mid-summer.

There is an exhibition in the old Salvation army barracks an armless child, or rather a 13-year-old girl with arms about six inches long. Her feet are made to do the duty of hands and she apparently suffers no inconvenience as she uses her feet with the same ease and grace that an ordinary person does his hands. She is a bright looking child.

## INTERNATIONAL IRRIGATION CONGRESS.

It is to Meet at Los Angeles Next October.

The following has been received by the JOURNAL from C. D. Willard, secretary, Los Angeles, Cal.:

An interesting and important congress will meet at Los Angeles, California, on October 10, to sit for five days. This is the international irrigation congress, the last session of which was held at Salt Lake city in September, 1891, about 700 delegates being present. It is expected that the Los Angeles congress will be numerous attended, not only from all parts of the United States, but from foreign countries as well.

The people of the United States have only just begun to realize the importance of irrigation to this country. The available government land in the United States, outside of the arid regions, is almost exhausted. The time is nearly gone when Uncle Sam could give away man a farm. What is left is mostly in the so-called "desert" regions—those dry and forbidding stretches of sagebrush and cactus covered land, which were long believed to be absolutely worthless but which water, directed by science, has in many cases transformed into veritable Edens. It is to these regions that those of the rising generation who desire to follow Horace Greeley's advice and "go west," must look for their independent homes where they may literally sit under the shade of their own vine and fig tree.

If the man who causes two blades of grass to spring up where one grew before is worthy of honor, what shall be said of the man, or men, who build flourishing cities surrounded by smiling orchards and vineyards in spots where a few years ago a jackrabbit would have been starved to death?

The progress that has been made in the past few years is well shown by the following figures of the area under irrigation in the various states and territories during 1890:

States and Territories	Number of Irrigators	Acres Irrigated
Arizona	1,075	65,221
California	13,732	1,004,233
Colorado	9,050	890,735
Idaho	4,323	217,005
Montana	3,705	350,582
Nevada	1,107	224,403
New Mexico	3,085	91,740
Oregon	3,150	177,944
Utah	9,725	267,473
Washington	1,046	48,799
Wyoming	1,917	228,076
Sub-tropical region	1,552	66,905
Total	64,136	3,631,351

It is fitting that Los Angeles, the "City of the Queen of the Angels" should be selected as the meeting place for this congress, for in the section of which that city is the commercial center, irrigation has reached its greatest development, and water, backed by American pluck and perseverance, has accomplished greater marvels than in any other section of the United States, perhaps the world. Here are Pasadena and Riverside, beautiful and wealthy cities of some 10,000 inhabitants each, upon sites that twenty years ago were valued at less than \$5 an acre, and were considered good for nothing but sheep pasture, and Los Angeles itself is proof of the value of irrigation, for it has grown within a few years from a sleepy, semi-Mexican pueblo of 12,000 people to a live and beautiful American metropolis of 65,000 population, and this increase is due to the development of the surrounding country by means of irrigation.

## THE MILLER & LUX PROPERTY.

A Probability that it Will Be Divided. The Dayton Times has the following relative to the Miller & Lux firm:

Mrs. Maranda Lux, wife of Chas. Lux, the dead cattle king, who with his partner, Henry Miller, owned more land and cattle than any other firm in the country, is dissatisfied with the way in which the surviving partner is managing the affairs of the partnership.

According to the provisions of the will of Chas. Lux the entire management of the vast business affairs of Miller & Lux was to be left to Miller. The latter, although now controlling more cattle and land than any other cattleman in the country, is ambitious to add to his immense possessions, while the widow is anxious to get affairs settled so that she can get one-half the assets of the firm.

The widow is also dissatisfied with the methods pursued by Mr. Miller and as he refuses to entertain the propositions advanced by Mrs. Lux, the lady has decided to apply to the courts for a partition of the assets belonging to the firm of Miller & Lux, which are valued at \$20,000,000.

The firm owns large tracts of land in every state and territory on this coast, having some 20,000 acres in Mason valley, this country, and it is said they can drive cattle from the gulf of Mexico to the British line and camp each day on their own land.

The litigation will prove a bonanza to the attorneys engaged in the case.

## The Ball.

The ball on the evening of the 4th will be the most superb ever held in this state. In order to accommodate everyone there will be dancing on both floors of the pavilion. Music will be furnished by Fredrick's Orchestra and the Presidio Band. Elaborate and unique decorations are profusely arranged over the entire building and every attendant is assured a charming time. Ice cream and refreshments will be served by the ladies of the Episcopal Guild.

## Great Attractions.

The band will again be in attendance at Loughton's on Sunday and in addition there will be a foot race and a \$5 purse given to the most graceful young lady rider under 13 years of age. 392nd

## CONTRACTION OF THE CURRENCY.

It Means the Inflation of Debts, Which Is Sure to End in Panic and Disaster.

The goldbug press is trying to explain the present demoralized financial situation as being caused by a lack of confidence, and just as soon as confidence is restored everything will be secure. They claim there is a surplus of cheap money in Europe which we can borrow at a very low rate of interest, provided we repeal the silver law of 1890. Now let us see what there is in the claim of the goldbugs that will bear investigation. We will suppose that the act of 1890 is repealed. That would cut off a yearly supply of legal tender of at least \$45,000,000. According to the goldbug doctrine this shrinkage of the currency supply, and what more we may require, is to be made good by borrowing gold from Europe and giving in exchange more interest-bearing securities. Considering the already hopeless bonded and mortgaged condition of the property of the country, and the fact that a large percentage of the people and corporations are unable to meet their interest obligations, not even in our "inflated and depreciated currency," make it appear to a Populist as if the goldbugs were losing their faculties and were in need of a guardian. With plenty of raw material at hand, and no lack of ability to make our own money. This proposition to keep borrowing from Europe and increasing our usury obligations is a stupendous outrage and is enough to consign the two old parties to their political tomb.

The director of the mint tells us that there is about \$23 per capita available for circulation, which is about \$1 per capita less than it was one year ago. In this \$23 per capita is included nearly all the currency which has been lost or destroyed. It also includes the amount held as reserves and sinking funds by the various state, county, city and corporation vaults. It also includes all legal tender kept in burglar proof vaults by the shysters of our eastern city, who have a way of their own to contract the currency (probably learned from their European seniors). These are the fellows with their European allies that have been shaving the legislation which has caused the tremendous inflation of debts. Thirty-two billions of interest-bearing debts in a country that the assessors think is a very good showing, but it is not enough to satisfy the goldbug shysters, and now they propose to contract the currency still more and inflate the debts skyward so they can secure a little more imaginary plunder.

## "O'DOWD'S NEIGHBORS."

The Greatest Laugh-Provoking Farce Comedy.

"O'Dowd's Neighbors," down on the bills of the opera house for to-morrow night, is a farcical comedy in three acts, and affords Mark Murphy great opportunity to display his abilities as a star of laugh propensities magnitude. The piece is one a great deal better than other farce comedies. Mrs. Murphy has for some time been known as one of the funniest comedians in the line of his profession, and in "O'Dowd's Neighbors" he has lost no claim to his former reputation as a laugh-provoker. "O'Dowd's Neighbors" is a local farce comedy with farcical adjuncts, the acts of which are given over to a most laughable presentation of the laps and mishaps and adventures of the leading characters.

## Reno Encampment Election.

The following officers of Reno Encampment No. 5, I. O. O. F. were elected to serve the ensuing term:

George Campbell, chief patriarch; N. C. Hammersmith, high priest; Angus Robinson, senior warden; J. Berger, junior warden; F. C. Uptake, scribe; J. J. Becker, treasurer; J. V. Peers, H. P. Brown and R. V. Borden, trustees.

## Baking Powders Before Congress.

The Pure Food bill before Congress would be a righteous measure for the people, and should become a law. The public want pure food, and in order to protect themselves must know what is adulterated. All adulterated preparations should be so branded, including Baking Powders containing Ammonia or Alum. Then if people want to dose themselves with "Absolutely Pure" Ammonia or Alum, they will do it knowingly. The public have been looking up the composition of Ammonia and Alum and they don't like the idea of eating either in their hot biscuit.

## Dr. Price's Cream Baking Powder

is a Pure Cream of Tartar Powder; free from Ammonia, Alum, Lime or other adulteration. And every investigation, whether in the laboratory or kitchen, confirms and emphasizes its superiority in every way.

## BREVITIES.

Mrs. Gabriel Hoskins of Reno and Mrs. M. O. Bingham of Tuscarora, while out driving in a buggy yesterday morning, had a narrow escape from probably serious injury by being run into by a locomotive. They were crossing the track near the cattle bridge, and when the horses reached the track the engine emerged from behind some standing cars. The prompt action of the engineer in reversing his engine was all that prevented a collision.

George W. Crum died yesterday at his residence near Battle Mountain. He was one of the pioneer cattlemen of the Humboldt country, having engaged in the stock business before the Central Pacific railroad reached Nevada. He settled near Battle Mountain and became one of the largest land and cattle owners in that section. He was a good citizen and a man of strong convictions who never swerved from what he believed to be right.

Judge Cheney returned yesterday from Winnemucca, where he had been called on judicial business. I. B. English was taken before him on habeas corpus proceedings and released on \$7,500 bail. English was arrested for killing Cody near Fort McDermitt last spring. He was examined before Justice Archer and discharged. Subsequently the grand jury indicted him, and he sued out a writ of habeas corpus, with the result noted.

The Northern Pacific has announced an all-rail rate from San Francisco to St. Paul of \$45, first-class, and \$40 in second. This is a cut in the first-class rate of \$10 and \$2 90 in the second. The Southern Pacific company has requested all Eastern connections to join in making rates equal to those put in effect by Northern competitors, and if it succeeds in winning them over to its way of thinking, the Union Pacific will be drawn into the row.

## The Floats.

The floats to be presented in the procession on the 4th of July will be the finest ever displayed west of the Mississippi. Special artists have been imported to prepare them.

The first car of state will be elaborately decorated with national and patriotic designs. It will contain the Goddess of Liberty—Miss Agnes Bell—surrounded by forty-four young girls representing the different portions of our country.

Second—The Santa Maria, the caravel of Columbus, representing the enlightened navigator surrounded by his faithful crew.

Third—First sight of land by the discoverer.

In these two latter pieces all of the participants will be appraised in the costumes of the fifteenth century, and the entire pageant will be a spectacular marvel.

## Died at Lake Greeno.

John Klink died at Lake Greeno, Lassen county, Cal., yesterday morning of congestion of the lungs. The body was brought to Reno on last evening's N.-C.-O. and removed to W. Sanders undertaking parlors, where it was embalmed and prepared for shipment this evening to San Jose, Cal., where a brother of the deceased resides.

Deceased was a member of John A. Dix Post, No. 42, G. A. R., having fought in Company K, 25th Ohio Veterans. Fred Pohle accompanied the body to Reno.

A Leader. Since its introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of the Stomach, Liver or Kidneys. It will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c per bottle. Sold by S. J. Hodgkinson.

## Keep Away From Bodie.

Several miners have been coming to Bodie lately from other camps. To those who have an intention of heading this way in the expectation of getting work, we will say that such a trip will be but a waste of time and money, as they will meet with disappointment. Things at present are at a standstill, and when the Standard resumes operations there will be more than enough men right in town to make up the necessary force.—Bodie Miner.

## Cosmetic Cream.

Is the latest and best of all toilet creams to render the skin soft, white and beautiful without injury to it. It is excellent for sunburn and to remove tan and freckles and other blemishes. Every lady should have a bottle and it may be had of Wm. Pinniger.

## Lost, Strayed or Stolen.

Al Helms, of the Comfort Tonsorial Parlors, will pay a liberal reward for the return of one Robert Jones, who suddenly disappeared from the parlors Tuesday evening last and has not since been seen or heard from. No description of his marks and brands are necessary, as his individuality will distinguish him.

## Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs and Colds, upon this condition. If you are afflicted with a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at S. J. Hodgkinson's drug store. Large size 50c and \$1.

When Baby was Sick, she gave her Castoria.

When she was a Child, she clung to Castoria.

When she became a Woman, she clung to Castoria.

When she had Children, she gave them Castoria.

Pure ice cream fountain soda at Pinniger's, Virginia street.
